VACANCY ANNOUNCEMENT

ENVIRONMENTAL SCIENTIST

**LOCATION: CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD,
11020 SUN CENTER DRIVE #200, RANCHO CORDOVA, CA 95670-6114**

The Central Valley Regional Board is searching for an individual to staff their Compliance and Enforcement Regulatory Unit in the Irrigated Lands Section of the Sacramento Office. This full-time permanent position presents a unique opportunity to be part of a new regulatory program for irrigated lands.

ENVIRONMENTAL SCIENTIST - (RPA 04-150-54)

DUTIES: Under the direction of the Senior Water Resource Control Engineer, the Environmental Scientist will prepare and execute compliance and enforcement cases in the Compliance and Enforcement Regulatory Unit throughout the Central Valley Region. The Environmental Scientist will conduct complaint investigations, inspections, compliance evaluations and prepare formal and informal enforcement actions, as needed. Coordinate with other units within the Irrigated Lands Waiver Section to implement a comprehensive regulatory program. Coordinate enforcement work with staff in the Fresno and Redding Regional Board offices. Present information on enforcement cases to various groups and the Regional Board. Maintain a field presence including driving Regional Board vehicles. Enter tracking information into SWIM or related databases. Prepares correspondence, regional board agenda items, and enforcement orders to implement enforcement actions such as Cleanup and Abatement Orders and Administrative Civil Liability complaints.

NECESSARY QUALIFICATIONS: Effective communication skills including both verbal and writing skills; ability to work well with other disciplines; good customer service skills; ability to conduct field inspections; proficiency in standard computer applications including Word, Excel, PowerPoint.

DESIRABLE QUALIFICATIONS: Experience working with multi-disciplinary professional staff (engineers, scientists, attorneys) engaged in environmental regulation, drafting regulatory or enforcement documents (orders, staff reports). An understanding of environmental water quality concerns related to discharges from irrigated lands facilities.. Familiarity Monitoring and Reporting Programs. Familiarity with databases available to Regional Board staff for storage and retrieval of discharger and water quality data. An understanding of environmental water quality concerns related to discharges from irrigated lands facilities.

WHO MAY APPLY: Applicants must hold a current Environmental Scientist appointment or possess list, transfer or reinstatement eligibility for Environmental Scientist. Applications will also be accepted

California Environmental Protection Agency

**VACANCY ANNOUNCEMENT
ENVIRONMENTAL SCIENTIST**

- 2 -

for the Land and Water Use Scientist, Water Resource Control Engineer and Engineering Geologist classifications.

Permanent-Full Time: Final filing date: December 28, 2004 Applications will be screened and the most qualified applicants will be scheduled for interviews.
